

Ankith. S

Quality Engineer 2

+91-7760780566 | ankithsuresh5@gmail.com | Bengaluru, INDIA | Experience: 4 Years 5 Months | <https://bold.pro/my/ankith-s/745r>

Bringing almost 4 years of expertise in Quality Assurance, I specialize in Agile Testing, TestNG, API Testing, and Regression Testing. At Unisys India PVT LTD, I spearheaded test strategy formulation and Automation Test Script development, driving the enhancement of software quality and delivering fully tested products. My accomplishments include receiving accolades for exceptional performance and high client satisfaction.

SKILLS

- java
- automation testing
- api testing
- functional testing
- maven
- Application Test Engineer
- sql
- manual testing
- agile methodology
- jira
- regression testing
- Performance Testing Engineer
- selenium
- software testing
- performance testing
- quality assurance
- Debugging

CERTIFICATION

- Certified Manual Tester
- Certified Automation Tester
- PROFESSIONAL SCRUM MASTER I

WORK EXPERIENCE

- Quality Engineer 2 - HashedIn

Jul 2024 - Present
- Implemented automation testing and manual testing to uphold optimal software quality standards within agile product development cycles at HashedIn by Deloitte.
 - Proficient in utilizing Selenium, TestNG, JUnit, Postman, Rest Assured for testing, with advanced scripting expertise in Java.
 - Executed API testing, regression testing, and performance testing to ensure seamless functionality of software products.
 - Designed and executed detailed test cases for functional, regression, and exploratory testing, ensuring software reliability.
 - Automated UI testing using Selenium (Java), enhancing test coverage for critical modules
 - Conducted Root Cause Analysis (RCA) for critical defects, reducing production issues.
 - Performed Functional and Integration Testing for the assigned stories and delivered with a good quality of products to the assigned time frame.
 - Acted as a Test lead and used to attend the refinement calls, Planning meeting ensure that product needs to be delivered at a time.
 - Performed Sanity testing, Smoke Testing for higher environment after each release to ensure that there are no bugs coming up while stakeholder testing.
 - Maintained Bug reports for each sprint to ensure that the developers and testers are on same page.
 - Collaborated closely with developers to resolve issues, enhancing feature quality.
 - Acted as a QA team lead, establishing and enforcing standardized testing strategies and best practices.
 - Collaborated with stakeholders and developers to validate features in isolated branches, ensuring early defect detection before main environment integration.

- Conducted regression testing during release cycles to ensure existing functionalities remained unaffected.
- Served as the primary point of contact for all testing-related activities within the team.

Applicaton test Engineer - Unisys

Sep 2021 - Jul 2024

Prepared test strategies and discussed testing goals for each sprint with team, assigned user to document test cases, test data.

- Creating Selenium Automation Test Scripts for test cases.
- Reporting testing status for current sprint daily during scrum meetings.
- Performing Regression testing and ensuring test run is successful in given local.
- Expertise in locating elements using locators like XPATH.
- Participate in peer reviews of Test Cases, Test Plans and Automation scripting.
- Developed and maintained courteous and effective working relationships
- Consistently have done the maintenance of the framework to ensure that there should not be any old scripts present in the Frameworks.
- Collaborated with the development team to streamline application updates, resulting in increased efficiency and user satisfaction.
- Conducting scenario walkthrough sessions and test results walkthrough session with UAT, Business and Dev teams
- Delivering fully tested product and getting sign-off from PO.
- Improved overall software quality by consistently identifying and reporting bugs and defects.

PROJECTS

International Olympic Council

8 Months

- Designed and executed detailed test cases for functional, regression, and exploratory testing, ensuring software reliability.
- Automated UI testing using Selenium (Java), enhancing test coverage for critical modules
- Conducted Root Cause Analysis (RCA) for critical defects, reducing production issues.
- Performed Functional and Integration Testing for the assigned stories and delivered with a good quality of products to the assigned time frame.
- Acted as a Test lead and used to attend the refinement calls, Planning meeting ensure that product needs to be delivered at a time.
- Performed Sanity testing, Smoke Testing for higher environment after each release to ensure that there are no bugs coming up while stakeholder testing.
- Maintained Bug reports for each sprint to ensure that the developers and testers are on same page.
- Collaborated closely with developers to resolve issues, enhancing feature quality.

Kroger Services

18 Months

- Conducted comprehensive functional testing to validate application behavior against business requirements.
- Executed stress testing to evaluate system performance and stability under high-load conditions.
- Performed detailed debugging and root cause analysis (RCA) to identify and resolve defects efficiently.
- Collaborated with lab teams during onshore hours to carry out functional and sanity testing activities.
- Served as the primary point of contact for all testing-related activities within the team.
- Partnered with management to clearly communicate testing principles, methodologies, and quality benchmarks.
- Worked closely with Product Managers and Technical Architects to assess product readiness and delivery alignment.
- Owned multiple functional modules, providing guidance and technical direction to the team as needed.
- Participated in support calls, offering critical support during weekends and national holidays to ensure continuity.

EDUCATION

2021 B.Tech/B.E. | Computers

Gopalan College of Engineering and Management,
Bengaluru

2016 12th
Karnataka, English
Marks - 60-64.9%

2014 10th
Karnataka, English
Marks - 75-79.9%
